1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/15/04 has been entered.

The amendment of 6/27/03 has been entered. Claims 1-24 are pending.

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 of U.S. Patent No. 6277811 Kasturi et al.. Although the conflicting claims are not identical, they are not patentably distinct from each other because, although the claims differ somewhat in scope, they are substantially of the same invention such that it would have been obvious to one of ordinary skill in the art at the time of the instant invention to make the instantly claimed composition from that of the patented claims since they substantially overlap in scope. The applicant's argument that the instant claims are not obvious over the patented claims is not persuasive in that the claims overlap so much, as stated above. The argument regarding suitability for use in hand dishwashing is noted but is not persuasive in that the instant claims and the patented claims encompass the same composition to the degree that the overlapping subject matter must have the same suitabilities. Given the content of surfactants and detergents in the instant composition and its ability to make suds, it would necessarily be able to be used in washing dishes by hand. No evidence to the contrary is seen. This rejection is maintained.

4. Claims 1-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-22 of U.S. Patent No. 6645925 Sivik et al.. Although the conflicting claims are not identical, they are not patentably distinct from each other because , although the claims differ somewhat in scope, they are substantially of the same invention such that it would have been obvious to one of ordinary skill in the art at the time of the instant invention to
